Alejandro Magdaleno

Skills

Languages

Java (4 years) | Python (3 year) | C++ (2 years) | Dart (< 1 year)

Tools and skills

Tensorflow, Data Visualization, Deep learning, ML Algorithms, Machine Vision, Testing, Quality Assurance, Firebase, Flutter, Git, Object-Oriented Programming

EXPERIENCE

Gridlines - Atlanta, GA — *Mobile App Developer*

August 2021 – Present

Gridlines is an app built for iOS and Android to provide football teams the ability to coordinate plays amongst each other.

- Reading and writing data from app to Firebase realtime database.
- Using Dart language to build frontend along with connection to Firebase.
- Using Git for version control through development.

Supersapiens - Atlanta, GA — *Quality Assurance Engineer*

September 2020 – Present

Served as the lead QA tester for the company website and contributed to mobile development testing. Performed regression, performance, and stress tests across several platforms. Provided developer teams with detailed bug reports and kept a report on verified bugs.

- Documented and delivered detailed QA reports to prepare for website and software releases.
- Tracked and reported bugs involving functionality and design changes through bug tracking tools.

EDUCATION

Kennesaw State University — *Kennesaw, GA*
